Grilled Cheese and

French Fries \$4.95

.....

Tilghman Island is known as
"The Pearl of the Chesapeake Bay"

to the people of Talbot County. The island is completely surrounded by the Bay and is separated from the mainland by Knapp's Narrows, a small waterway connecting the Chesapeake Bay with the Choptank River.

The area surrounding Knapp's Narrows is famous for its exceptional fishing and quaint small towns.

It is also home to the busiest drawbridge in the nation.

The original Knapp's Narrows drawbridge was built in 1934 and was a bascule bridge, meaning that a counterweight is used to balance the weight of the bridge itself. The original bridge was replaced in 1998 by a new bascule structure that spans a little less than 72 feet across and connects Tilghman Island to the southern tip of the Bay Hundred Peninsula. When it is raised, the channel is about 42 feet wide, leaving plenty of room for sailboats and other water crafts to pass through easily.

The Knapp's Narrows bridge is not just important as a byway – its structure is considered so important to the state of Maryland and Tilghman Island, both for its unique engineering and its historic and aesthetic relationship to the island, that the State Historic Preservation Officer (SHPO) listed it on the National Register of Historic Places (NRHP). It was also a significant contributing resource to the Tilghman Island Historic District -

Fun Facts: Blue Crabs - Callinectes sapidus means "Beautiful swimmer that is savory".

Crabs reach maturity in 12 to 18 months. - Few crabs live longer than 3 years.

The largest crab recorded from Maryland was a male measuring 9 inches; however bigger crabs (10-11 inches) have been captured in DNR crab surveys.

The annual harvest of hard crabs from Chesapeake Bay accounts for over 50% of total U.S. landings.

(Consuming raw or undercooked meats, poultry, seafood, shellfish, or eggs may increase your risk of foodborne illness, especially if you have certain medical conditions)

Not responsible for Burgers ordered well done!

There he stands, draped in more equipment than a telephone lineman, trying to outwit a fish with a brain no bigger than a breadcrumb, and getting licked in the process.

~Paul O'Neil, 1965
